Dear Steve,

Thanks again for all the help, without you my backyard would still be a jungle. Everything from the pool installation to the cool decking from Anna's Pool Decking, to the retaining wall that Larraca's Landscaping came out fantastic. The installation went smoothly and quickly, and the town gave me no hassles at all as everything was done to code. All your men were great, and your wife was such a wonderful person to meet. Finding you guys at the show in the Meadowlands was like finding a diamond in the rough.

It's been over a year now and anytime I have a question about the system I know you are only a phone call away. I really shopped around before I chose a company, and your prices, service and reliability were the best in the country. Thanks again and I hope you guys are willing to travel to Vermont next year to install one at the bed and breakfast I recently bought. Take care...

All the best,

Mike Mancino
